INTRODUCTORY

THE Publishers take pleasure in presenting their sixth edition of the Richmond Directory to their patrons with the assurance that it will be found equal, if not superior, to its predecessors. This issue contains a complete directory of Contra Costa County, which will prove of great value to our patrons. No expense has been spared in the preparation of the work, only experienced men have been employed, and the knowledge gained by many years devoted to Directory publishing has been used to advantage in the compilation of the present work.

GREATER RICHMOND POPULATION AND ITS GROWTH.

Number of Names in Richmond Directory.

1909—3422 Names; Population	8,655
1910—3592 Names; Population	8,980
*1911—5452 Names; Population	13,625
1912—5942 Names; Population	14,850
1913—7282 Names; Population	18,201
1914—8215 Names; Population	**20,538**

Increase Over 1913, 2337.

*The population since 1911 is based on names taken in the **Annexed District** in addition to the original confines of Richmond.

The basis of these figures is obtained by using the customary multiple of two and one-half, multiplied by the number of names that appear in the current issue of the Directory.

We desire to thank our many patrons for their continued support and the public generally for the uniform courtesy extended our representatives.

Richmond Street Guide
1914-1915

Including Its Adjacent Districts of East Richmond, North Richmond, Point Richmond, Pullman, San Pablo, Rheem, Stege and Rust.

SYSTEM OF NUMBERING

All the numbered streets that run north and south begin with Number One at the line of the Santa Fe Railway (which runs east and west) and number each way north and south from this point. All streets running south from the Santa Fe tracks are to be designated with the prefix South. Those running north to be designated with no prefix; for example: Number 26 First Street, south of the Santa Fe tracks, would be designated 26 South First, and the same number North of the Santa Fe tracks would be designated as 26 First Street (not using the prefix North).

All the named streets and avenues that run East and West begin with Number 1 at First Street and number each way, East and West, from that point, for example: 26 Barrett Avenue East of First Street is designated as 26 Barrett Avenue (not using the prefix East), 26 Barrett Avenue West of First Street would be known as 26 West Barrett Ave.

The same system is carried out at Point Richmond. The Santa Fe Railway tracks running North and South there, being the dividing line for all streets crossing it. The prefix West to be used on all streets running West from this point, and no prefix to be used on streets running East from this point.

NOTE: The figures in ( ) denote the distance in block numbers where the street may be located from zero point; the letter preceding the figures denotes the direction from the zero point, for instance: Barrett n(500) determines this street is 5 blocks north of Santa Fe tracks, which is the zero point.

ANTIOCH

Antioch is situated near the junction of the San Joaquin and Sacramento Rivers in Contra Costa County and is the recognized metropolis of the lower delta country lying between these two great waterways. As a possible manufacturing center, Antioch is not excelled by any locality on the Pacific Coast, having two transcontinental railroad lines and a deep water harbor that can accommodate the battleship Oregon, and with all of these possibilities being within fifty miles of San Francisco.

THE A. B. C. OF ADVERTISING

A—The best advertising is that which is the most profitable.

B—The most profitable advertising is that which gives the greatest returns for the least cost.

C—The cost depends on the method of attracting attention, and the cost is least when the number of people attracted is greatest.

The City Directory offers The Best Advertising for the Least Money.

THE A. B. C. OF ADVERTISING

A—The best advertising is that which is the most profitable.

B—The most profitable advertising is that which gives the greatest returns for the least cost.

C—The cost depends on the method of attracting attention, and the cost is least when the number of people attracted is greatest.

The City Directory offers The Best Advertising for the Least Money.

PITTSBURG

This rapidly growing city is second in size of Contra Costa County towns and is situated at the confluence of the two great navigable rivers of the Sacramento and San Joaquin Valleys and is the gateway to all that vast scope of territory. Aside from deep water facilities and the two great rivers for shipping purposes, Pittsburg is favored with three lines of railroad and is the junction of the Oakland, Antioch & Eastern Electric road. As a point for the assembling of products for manufacture and distribution it is unequaled. The rapid growth and substantial nature of Pittsburg's development emphasize the desirability of the location. Pittsburg's annual pay roll is nearly a million dollars. Although a manufacturing community, the city has many miles of nicely paved streets and is one of the cleanest and most progressive localities on the coast. In spite of dull times, financially, in other parts of the state, things move along with a sweep around this busy manufacturing city. Being only 35 miles from Oakland and with excellent transportation facilities, the advantages of the greater metropolitan city are enjoyed by residents at this point.

TO REST CONTENT with results achieved is the first sign of business decay. Compare this Directory with previous issues and note the improvement. It looks different—looks better, and is the result of what is termed "good printing." "Good enough" printing will attract the same kind of attention as a run-down heel on your shoe. Are you careful about your heels?

¶ Our Quick Print Shop, a department of complete service, produces "good printing"—the kind you should have—the kind that fits your business.
